EUROPEAN AIR LAW ASSOCIATION 10TH MUNICH LIABILITY SEMINAR

EALA is pleased to invite you to attend its 10th Munich Liability Seminar which will be held in Hilton Hotel Munich Airport.

Ever since the series of Munich Liability Seminars was started by EALA in 1997 liability developments and claims handling in the air transport and aerospace industries were the focus of these conferences, presented and discussed by leading experts and prominent moderators.

The 10th Munich Liability Seminar will again cover a wide range of topical issues:

- New air traffic management technology will improve safety, but may change liability risks for manufacturers and operators. Will this require new liability insurance solutions?
- Regulation 261/2004 - current issues and how air carriers can respond
- Liability issues resulting from overflight of conflict zones
- Update on toxic fumes in aircraft and air traffic disruptions resulting from volcanic ashes
- Update on liability of airports for birdstrikes
- Perhaps now more than ever, airframe manufacturers have available to them a range of strong defenses in aviation accident litigation filed in the United States, including reinvigorated defenses based on personal jurisdiction and forum non conveniens.
- The Germanwings crash has stirred a debate about whether moral damages/pain and suffering awards for victims of aviation accidents and their families should be increased. It has been proposed that an international instrument should govern these damages.

We invite all aviation lawyers, airline, insurance and re-insurance industry, aircraft and aircraft engine finance, aerospace industry and airport representatives as well as government officials and academics to join us for this comprehensive programme.

The one-day format and the timing of the very successful previous liability seminars have been retained in order to allow the delegates to travel to and from Munich the same day from most places in Europe.

The venue is as always the award winning Hilton Hotel Munich Airport (formerly: Kempinski), a few steps away from the gates of Munich Airport, a young and dynamic airport with continuously high rankings in international airport surveys.

You are cordially invited to attend the conference dinner on Sunday evening, 13th September 2015. For this we will leave the hotel for a very special visit: All dinner participants will be taken by coach to the main building of Munich Re in downtown Munich for an exclusive guided tour of the landmark building and the Munich Re art collection. The dinner will follow with a presentation on the Zeppelin NT airship by the CEO of the Zeppelin holding company. After the dinner the participants will be taken back to the Hilton Hotel Munich Airport.
