

CONFERENCE

THE FUTURE OF MOBILITY BETWEEN INNOVATION AND SUSTAINABILITY

28.04.2022

Hours 13:45

Palazzo Rospigliosi – Centro Congressi
Roma, Via Ventiquattro Maggio, 43

The aim of the PNRR (the Italian Recovery and Resilient Plan) is to intervene on transport infrastructures with a view to environmental, social and economic sustainability. This, in order to create new modes of mobility starting from the existing ones. The Plan is in line with the proposals of the United Nations 2030 Agenda for Sustainable Development: all companies, including those in the transport sector, are required to adopt a proactive approach to sustainable development, through new business and management models and new technologies. In this context, although the Covid-19 pandemic has shed light on the vulnerabilities of the European single market and of the transport sector - which has been severely penalised by restrictive mobility measures to contain the contagion - the extraordinary circumstances that have arisen have provided an opportunity to understand the essentiality of the various forms of mobility. This led the sector to think more deeply about future investments and large-scale reforms.

The Conference examines all the initiatives that the transport sector is implementing in order to pursue the above objectives, which will influence the choices of maritime and air operators - also in light of the innovations to be introduced, for the airports, by the future National Airport Plan currently being drawn up - and of other modes of transport, such as rail, aimed at ensuring national connectivity and intermodality.

13:45 Registration – Welcome Coffee

14:30 Welcome address & Launching video

14:40 Keynote Address

Sergio Colella

President SITA Europe

14:50

**Air Transport and
Sustainability: Relaunching the
Sector Protecting Health and
Environment**

Moderator:

Anna Masutti

*Chairperson RFI (Italian Railway Network), Bologna
University, R&P Legal*

Speakers:

Fabio Lazzerini

CEO, ITA S.p.A.

Ivan Bassato

Chief Aviation Officer, Aeroporti di Roma

Peter Gerber

*CEO Brussels Airlines, CR European Affairs Lufthansa G.
President BDL*

Conclusion:

Olivier Jankovec

DG, ACI Europe Milano

16:00

**Challenges and Opportunities in
the Future National Airport Plan**

Moderator:

Stefano Paleari

Bergamo University

Speakers:

Monica Scarpa

CEO, SAVE Aeroporto di Venezia

Emilio Bellingardi

DG, SACBO Aeroporto di Bergamo

Nazareno Ventola

CEO & DG, A. Marconi Aeroporto di Bologna

Giovanni Battista Scalia

CEO, GESAP Aeroporto di Palermo

Conclusion:

Pierluigi Di Palma

President, ENAC

17:20

**Transport Infrastructures,
Connectivity & Intermodality: the
Green Revolution and Social
Sustainability**

Moderator:

Laura Bettini

Radio24 – Gruppo Sole 24 Ore

Speakers:

Vera Fiorani

CEO, RFI (Italian Railway Network)

Stefania Pezzetti

*VP Ground Operations Southern Europe FedEx Express
and AD FedEx/TNT Italy*

Nazzarena Franco

CEO, DHL Express Italy

18:20 Conclusions

Enrico Giovannini

Minister of Infrastructure and Sustainable mobility

Aperitif

Registration

Seats are limited up to the maximum capacity of the conference room and access is allowed only to people owing green pass certification. Registration is required by writing to the following email: elisabetta.pozzati@rplt.it.
